23	Z6141534B	14x1,50	Mutter kupol, 60°	34	19

Viktigt att tänka på vid hantering av muttrar och bultar

Använd rätt sorts konä på bult/mutter för den fälg som avses samt rätt längd. Roterat hjulet medan bilen fortfarande är upphissad för att kontrollera att bult/mutter inte går emot någonstans. Använd alltid biltillverkarens rekommenderade åtdragningsmoment. Använd aldrig muttermaskin för momentdragning. Efterdrag bult/mutter efter cirka 100 kilometers körning.
